Managerial skills

Planning

I have experience in organizing activities in line with set guidelines, remaining within the limits of the available resources such as time and money.

I am capable of identifying and setting achievable goals, developing the necessary strategies, outlining tasks and schedules to achieve the set goals.

Communication

I can determine how well information is shared within a team, ensuring that the group acts as a unified workforce, and also having the ability of changing communication register depending on the interlocutor.

Decision-making

I am used to making clear and correct decisions, being accountable for every decision I make and also willing to take the responsibility for the results of my decisions.

Delegation

I am used to efficiently re-assigning tasks and giving authority to the right employees, so avoiding wastage of time, optimizing productivity, ensuring responsibility and accountability on the part of employees, in order to achieve optimal results.

Problem-solving

I am able to tackle and solve problems that frequently arise in a typical workday, clearly identifying a certain problem or situation and then finding the best way to handle the problem and so achieve the best solution.

Job-related skills

Good knowledge of construction and industrial production technologies and material properties.
Excellent knowledge of Italian and European history of design.

Digital skills

Professional knowledge of the following software: Microsoft Office (Word, Excel, PowerPoint, Outlook). Adobe Photoshop, Illustrator and InDesign. AutoCAD and SketchUp.

ADDITIONAL INFORMATION

Publications

I have written several publications on subjects of architecture and design, all in the Italian Language.

Conferences & Seminars

I have acted as speaker and/or moderator at many conferences, courses and seminars, all dealing with design arguments.

Honours and awards

"TESI FRIULI" Award. Second prize. Award received for the PhD thesis entitled "Design in the North-East: History and Technological Evolution of Industrial Design in Friuli Venezia Giulia" (2010)

Urban and spatial planning prize LUIGI PICCINATO - 5th edition. Selected project: Corner House in San Donà di Piave (2009)

Multifunctional centre in the area called "ex municipal slaughterhouse" in Udine. International Competition (2007) member of the group 2nd Classified.
